

The Puget Sound Energy (PSE) LNG facility would lock citizens into 50 years of burning fracked gas and accelerate climate change while exposing our population to carcinogens and explosion dangers.

- PSE is a Bellevue-based Australian-owned for profit energy utility.
- PSE's owner, the Macquarie Group, is known for high margins.
- The Australian media calls the group "The Millionaire Factory."
- The CEO of PSE's Australian owner made \$18 million in 2016.

PSE LNG FIGHT it like it's METHANOL

- 310,000,000** \$310,000,000 project cost
- 133,300,000** \$133,300,000 ratepayer portion
- 87,000,000** Gallons of fracked gas per year
- 500,000** Gallons maximum daily production
- 203,446** Tacoma citizens at risk
- 41,502** Tons of CO₂ per year at max capacity
- 43** 43% of the cost paid by ratepayers
- 18** Permanent jobs
- 17** 17% potential fracked gas leakage rate
- 14** 14-story 140' tall fracked gas tank
- 5** Miles of new fracked gas pipeline
- 1** Colossally bad plan for Tacoma
